

Envirospec is helping to increase the Enhanced Tax Abatement Credit for Green Roofing in NYC from \$5/SF to \$15/SF

Help us by sending an email to greenroofrules@sustainability.nyc.gov or posting a message at the bottom of the page at <https://rules.cityofnewyork.us/rule/32819/> for this Green Roofing initiative. Send your own message/email, or copy paste the one below!

Dear Mayor's Office of Sustainability,

Thank you for working to expand financing for Green Roofs in New York City. Because it is important for our city to build as many green roofs as possible on buildings that are connected to our combined sewer system, I believe that the priority area for the \$15 tax abatement should include the entire city, excluding the MS4 area.

Thanks again for your hard work and commitment to making New York a greener place.

Sincerely,
Your Name
